HPBX Communicator

A brand-new soft phone solution

VOIP + INTERNET + TEAMS

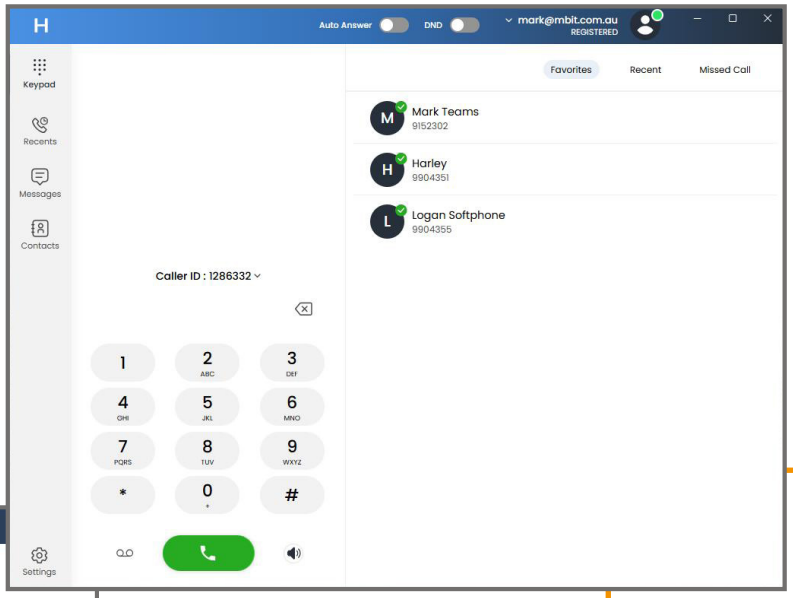
Fully Functional

Introducing HPBX Communicator, the latest soft phone from MBIT Technologies.

Exclusive to MBIT, this complete communication solution comes equipped with all the essentials - call transfer, hold, mute, voicemail, and company directory, as well as BLF support for real time status and availability of users.

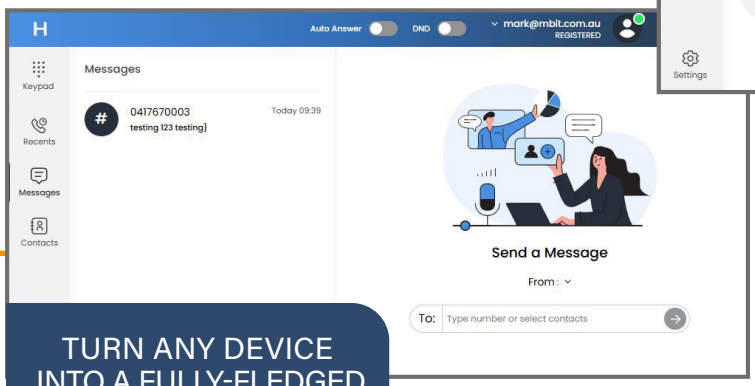
HPBX Communicator provides a flexible, reliable communication experience at home, in the office, or on the road.

Enjoy crystal-clear audio and video for uninterrupted communication wherever you are, no additional plugins necessary.



Instant Collaboration

Stay connected across devices and networks with file sharing, push notifications, SMS and rich messaging or bring your team together in seconds with group chat and 3-way audio conferencing.



TURN ANY DEVICE INTO A FULLY-FLEDGED BUSINESS PHONE

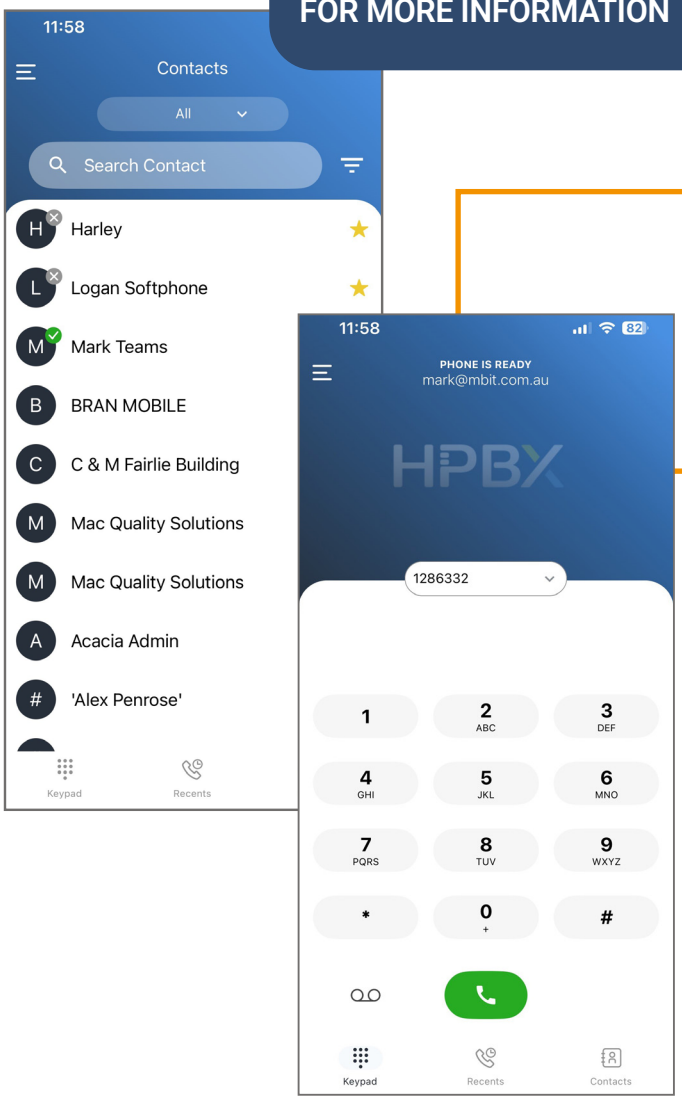
Privacy & Protection

Secure by design, your calls and data are protected from unauthorized access via 2-step verification and encryption protocols including TLS, SRTP, and WebSockets.

Auto-Provisioning

Cloud-based technology allows automatic provisioning of devices.
Configure and deploy HPBX Communicator directly through your system with no manual setup, and switch to any device, mobile or desktop, at any time with zero re-provisioning effort.

BOOK A DISCOVERY CALL FOR MORE INFORMATION



HPBX Communicator is fully compatible with 4G, 5G, ethernet, and Wi-Fi networks and is available on Windows, Mac, Linux, IOS and Android. Delivering seamless connectivity anytime, anywhere.
